

Gouweleeuw: The paint shop for vertical transport

In this edition of our newsletter we share a scoop: we painted the world's first 60-ton hybrid mobile telescopic crane for Wagenborg Nedlift. In addition, on the back of this newsletter we highlight a special project that we carried out on behalf of Schaften Cranes B.V. for an Australian end user.

KOBELCO

SPIERINGS
MOBILE CRANES

SANY
CRANES. SERVICES

We spray cranes > 1000 ton, including:

- ✔ Mobile cranes
- ✔ Crawler cranes
- ✔ Tower cranes

In addition, we spray:

- ✔ Aerial platforms
- ✔ Telehandlers
- ✔ Trucks

The world's first 60-ton hybrid mobile telescopic crane in our paint shop

We recently had a first in our workshop: for Wagenborg Nedlift we painted the XCMG XCA60 EV, the world's first 60-ton hybrid mobile telescopic crane, in their corporate colours. Although painting an electric telescopic crane is similar to a fuel-powered crane, extra attention must be paid to the electronics. In addition, it is crucial that there is no longer any voltage on the battery. The electronic components must be masked and made waterproof in a specific way. After completing our painting work, the innovative crane was presented to the public during Delfsail 2024 in the Netherlands.

Liebherr LTM 1250-6 for Toscani

We recently painted the Liebherr LTM 1250-6 for Toscani with great success. We are pleased to report that Mr Frank Toscani is very satisfied with the result. View the before and after photo of this crane below.

Highlighted project: Liebherr LTM 1160-5

We have been a leader in our industry for more than 30 years. As a result, we have been able to paint many machines for clients from all over the world in recent years! Below you can see one of our recent projects:

Commissioned by Schaften Cranes B.V. we painted a Liebherr LTM 1230-5 and three Liebherr LTM 1160-5 in their corporate colours for an Australian end user. This was a fantastic assignment that really tested our power of perfection. Due to the strict quarantine measures for shipping the cranes to Australia, the 4 machines had to be delivered more than spotlessly clean. We successfully completed this challenge.

We are extremely proud that Gouweleeuw can be part of these global projects.

We wish the end user many safe and productive working hours with the cranes!

Transport service

If desired, we can take care of the transport of the crane. We arrange both international transport and transport from the port for you. For example, for G. O'Brien Crane Hire Ltd. (Ireland) we arranged pick-up of their LTM 1230-5 from the port of Rotterdam and we put the crane back on the boat to Ireland upon delivery. Would you like to know more about our transport service? Please do not hesitate to contact us!
